

EN 10208-2 L 485MB steel plate/pipes for large diameter pipes

L 485MB steel plate/pipes,under EN 10208-2 standard, we can regard L 485MB steel plate/pipes as large diameter pipes.

L 485MB steel plate/pipes is one mainly of Steel for large diameter pipes,EN 10208-2 L 485MB steel with the demands in mechanical properties of the pipes followed the API specification for grade L 485MB(YS is 485MPa, TS is from 600-750 MPa).It is well known that a low carbon bainitic microstructure offers an excellent combination of strength and toughness.
