

Steel plate for for Boiler Pressure Vessel DIN17135 17 MN 4 steel

17 MN 4 steel plate, DIN17135 17 MN 4 steel plates is a kind of material for boiler and pressure vessel steel. DIN17135 17 MN 4 steel plates is characterized by a minimum yield strength of 220 - 295 MPa and by good weldability, so 17 MN 4 steel is mainly used to for manufacturing boilers, pressure vessels and pipes transporting hot liquids. the following are DIN17135 17 MN 4 steel plate's Chemical composition and mechanical properties.

If you are looking for Chinese 17 MN 4 steel supplier, if you want to know 17 MN 4 steel price, please be free to contact us.
